

SIDCUP AND DISTRICT MOTOR CYCLE CLUB

The SEVENTEENTH SIMMONS CUP TRIAL

Sunday 12th February 1956

Starting from ?

Report in the April 1956 issue of the Sidcup Club monthly magazine, "The Compass"

"This trial was run in cold and bad weather; some sections had to be cut out owing to lack of observers, but enough sections were manned to run the event. I must thank all those willing people who were hardy enough to turn up and help in the snow."

RESULTS (PART OF)

SIMMONS CHALLENGE CUP	Gordon Jackson	0 marks lost
THE O'DONNELL Cup (Best Sidecar)	J.A. Simcocks	96 marks lost

TEAM AWARD	Bromley 'A'	

Present day notes:

The January and February issues of the Compass mentioned the Trial and the date, but did not state where the start was! Could that be the reason there was a lack of observers, as mentioned in the report above?

There is neither Programme nor Results Sheets in the Club archives, so any more information is unavailable. Has anyone got either tucked away in the attic or shed?

All riders had just their first initial, so I have added the few that I know. If you know of any other first names, please send a quick email to peter@sidcupmcc.co.uk.
