

The 2000 SIMMONS CUP TRIAL

Sunday 9th January 2000

at Canada Heights

Present Day Note:

There is no programme or Results in the Sidcup Club archives. **Has anyone out there either?**

The minutes of the January 2000 Club Committee meeting gave the following brief report on the Trial:

"SIMMONS CUP TRIAL 2000

Another good event, a lot of late entries due to no Regulations being in the Gazette. The Steward's Report criticized two sections thought to be a bit daunting for the Blue Route. A vote of thanks to Jamie Clarke and Michael Nutbrown for their help."

In the Trials Secretary's Report in the same Committee meeting, Peter Burton (the Trials Secretary) said:

"Mr Reg Playfoot had ideas on building a waterfall section using a recycling pump and water which seems to be coming out of the ground by the old beech tree."

Reg did not give any further details on his idea, and you will probably know that no such section has been built. Is there a civil engineer out there who would like to take on the project?
