Present day comments: This event was Ted Usher's third win of the Sidcup Sixty Trial. He won in 1946, 1949 would win again in 1953.

The December 1951 Compass had neither the results nor even a report on the 1951 Sidcup Sixty.

The Official Results were printed in rider number order. Sheet 2 ceases at rider number 90, but there were at least 168 solos in the trial. The results **below** are in finishing order, but solo positions 32 onwards cannot be ascertained.

The sidecar results are complete as they are all on sheet 1.
